

## NOTICE TO ALL HARBOUR USERS - DUTY OF CARE

There have been reports that boats engaged in sail training (both groups and individuals) have on occasion sailed in to mooring areas and have collided with moored boats and, in some instances, have caused damage

There have also been reports that moored boats when leaving and approaching their moorings have collided with other moored boats

I would like to remind all users that there is a requirement for duty and care at all times when on the water and that all training groups should stay clear of the mooring areas and all mooring holders should leave and approach their moorings with caution

Please also report (at the time and to the parties concerned) any incidents that occur as it is very frustrating for a boat owner to return to their mooring and find damage to their boat without knowing how it got there

Many thanks

Simon Coate  
Harbour Master  
Dun Laoghaire Harbour
